NUOVA LOFRA HAS AN ITALIAN HEART

This company, managed by an important Multinational Group, is, more than ever, the best example of made in Italy in the kitchen; all this thanks to the excellence of its products, the advanced technological research of its solutions and the care for details. Moreover, the company can count on the innovative force of its ideas, and the creative talent of its design, on the men and women who, work every day with passion and professionalism to guarantee the identity and character of each product. Above all, the company offers an innate sense of the traditional beauty and superior quality characterising the Italian Good Taste in the world and making the Nuova Lofra brand unique in the international market. The new factory, with its covered 33.000 squared meters, certifies unequivocally the strong will to grow that animates Lofra world. A new productive reality intended to re-launch the Brand all over the world.

THE INGREDIENTS FOR A SUCCESSFUL ENTERPRISE

100%
ITALIA

The quality of materials, selected with an eye to function and environmental friendliness, the wide range of solutions developed by advanced research & development activities to satisfy all needs, the creativity, expressed through refined design and clever shapes, maximum and total safety, certified by the best certifying bodies in the field, the best performance at the smallest price, the talent in combining the excellence attained by a company with a 60-year history and the good taste of world-renown Italian cuisine are the main features of Nuova Lofra. They are also the secret of its success on the market.

-15%
class **A**

CLASS A

All Lofra electrical cookers are rated 'A' for energy efficiency confirming the optimum ratio between consumption and performance.

class **A**

MAIN FEATURES

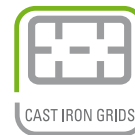

SERIE III BURNER

The Sabaf Serie III new burners give exceptional performances with no equal in the world: the highest efficiency and minimum emissions.

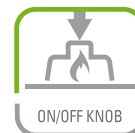

FLAME FAILURE DEVICE

All cookers meet CEE regulations relevant to safety and each burner is protected by a flame failure device that immediately cuts off gas supply in the event that the flame blows out.

CAST IRON PAN SUPPORTS

Unchangeable over time and easy to clean. Recommended for frequent use of the hotplate.

ONE-HAND ELECTRIC IGNITION

A practical device that allows single-handed ignition using the control knobs.

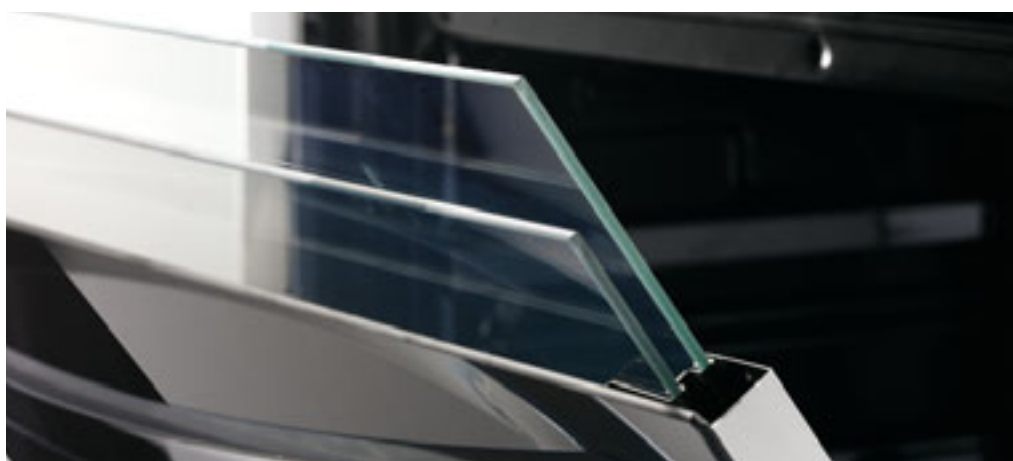

FULL GLASS

All Lofra cookers have the oven's inner door "Full Glass" with stainless steel profiles.

LITRE CAPACITY

Lofra ovens are designed to provide increased capacity to accommodate the largest dishes.

TEMPERED TRIPLE GLAZED OVEN DOOR

Made up of three panels of glass, creating a semi-sealed chamber and a second chamber with an air current. It dramatically reduces the external surface temperature of the oven ensuring safety and reducing energy consumption.

STURDINESS

Lofra is a sturdy cooker, as its width shows; it expresses resistance, strength and sturdiness at the highest levels. A guarantee of reliability over time.

COOKING FUNCTIONS

GAS OVEN

VENTILATED GAS OVEN

The uniformity of temperature is provided by a fan. Excellent for cooking where a uniform distribution of heat and constant temperature is necessary.

The fanned gas oven was pioneered in 2005, and was unique in Europe. According to the results of the 2005 ring test, the ventilated gas cooker by LOFRA is in the highest efficiency class.

ELECTRIC OVEN

MULTI-FUNCTION OVEN

Lofra ovens offer up to eleven cooking programs that can meet the requirements of the most creative cooking.

PROGRAM YOUR COOKING

GAS OVEN

ONE-HAND DIGITAL PROGRAMMER

It is possible to programme when the oven switches on to cook at your convenience.

DIGITAL MINUTE MINDER AND CLOCK

ELECTRIC OVEN

ONE-HAND DIGITAL PROGRAMMER BY LOFRA

It is possible to preset when the oven switches on thanks to an easy to use digital programmer.

TIMER

Device that allows you to programme cooking times.

OPTIONS

GLASS LID

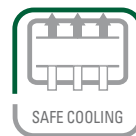

Removable tempered glass lid. It is exclusive, thanks to the Lofra's special patent: the balanced hinge makes opening and closing easier.

optional: curva/professional/newmaxima

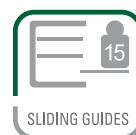

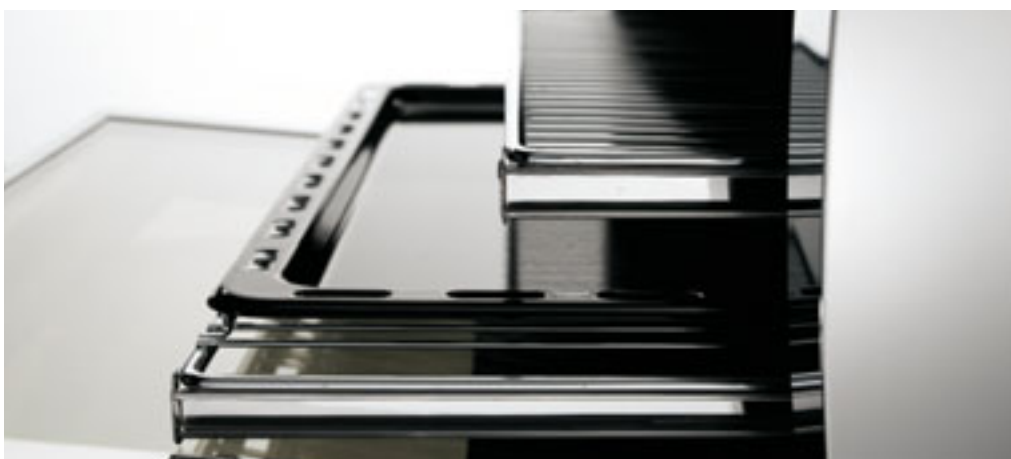

EASY TO CLEAN

The internal surface of the oven is smoother and easier to clean, due to Lofra's unique enamel coating.

COOLING FAN

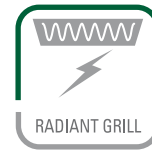

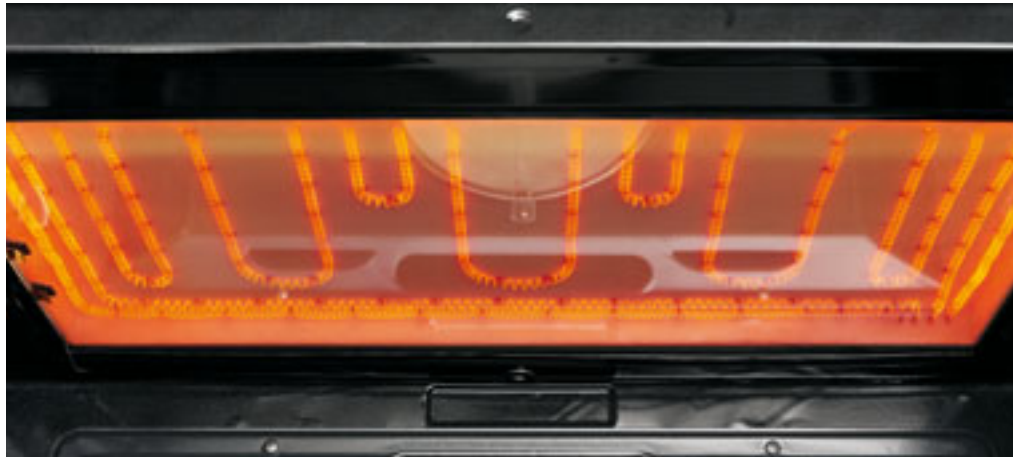

It prevents hot air from damaging close to kitchen furniture. Cold air enters the oven door from below and warm air vents out through a slot above the handle.

TELESCOPIC SHELVES SUPPORTS

Special guides prevent the overturning of trays, grilles and spits with a load up to 15 kg while also permitting easy access for turning and basting.

OPTIONS

RADIANT GRILL

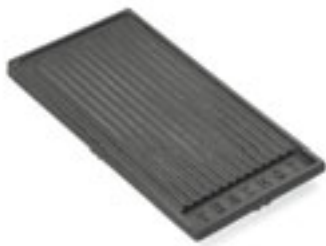

The grill element is seated behind ceramic glass. It heats up and cooks quickly, reduces energy consumption and is easy to clean. It also facilitates a gas cooking solution to obtain the perfect browning and crispiness.

I SERIE BURNER

The I Serie burner has a high level of efficiency and minimum gas emissions. In accordance with EEC Gas Safety Directive, the burner is protected by the GAS-STOP system, which allows a timely cut-off of gas supply whenever the flame burns out.

ACCESSORIES

CAST IRON GRIDDLE

TEPPANYAKI

GRILL PAN AND HANDLE

CAST IRON GRID

FINISHING

STAINLESS STEEL
Skilled polishing turns the steel top into a completely smooth and acid-proof surface making it more resistant to scratching and easy to clean.

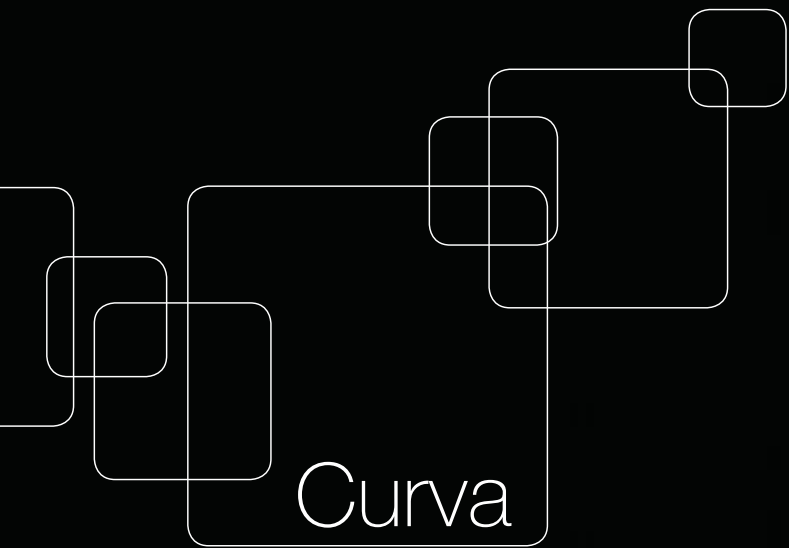

BRUSHED STAINLESS STEEL
Steel is pressed in one piece making cleaning easier.

Curva
Cookers

CURVA PROFESSIONAL

All "Curva Professional" cookers 120 and 90 cms are also available in Black mat, Burgundy, Ivory and Pearl white

ONE-HAND ELECTRIC IGNITION
A practical device that single handed hotplate ignition using the control knobs.

TRIPLE RING BURNER
Facilitates fast, even cooking for really professional results.

TELESCOPIC OVEN SHELVES SUPPORTS
No overturning risks, thanks to the possibility to completely remove the shelves, shelf supports and oven furniture.

CAST IRON PAN SUPPORTS
Designed to last and easy to clean, they ensure the highest reliability and convenience.

ONE-HAND DIGITAL PROGRAMMER
Opportunity to program the oven to switch on and off at your convenience.

Dolcevita

Dolcevita

The New "Dolcevita" range is a tribute to more than 50 years of cookers production. A "touch" of tradition, supported by the latest technologies.

Dolcevit is not only beautiful, it's also precious: knobs and handles are completely metal, brush or chrome finish with an extensive use of stainless steel.

Dolcevit range, available in different new colours and technical variations is LOFRA's recent masterpiece: a real collector's item.
